## TWENTIETH ANNUAL REPORT

OF THE

## BOARD OF THE CHURCH ERECTION FUND.

MAY, 1890.

To the General Assembly of the Presbyterian Church in the United States of America:

Acknowledging with grateful thanksgiving the Divine mercy, that notwithstanding repeated bereavement has sustained and enlarged its work the Board of the Church Erection Fund respectfully presents its twentieth annual report, as follows:

Twice during the year the summons from above has made a vacancy in the ranks of its Trustees.

Upon the fifteenth of January, Stephen H. Thayer, Esq., and upon the ninth of March, 1890, Judge Bennington F. Randolph were called from earthly work to their rest and reward. Both had been long members of the Board, Mr. Thayer having been one of the original incorporators, and Judge Randolph having been elected in 1873; and thus closely associated in its work for many years, they were veterans and leaders in its service. Both were distinguished members of the legal profession, and as trusted counselors of the Board were alike ready to give freely in its interests, their time, their strength, and their professional skill.

Although they both had passed in their years the line of three score and ten, there had been no cessation of their interest or activity in the cause of their Master, and their deaths in each instance unexpected, oppressed with a deep sense of bereavement not only the Board, but the churches in which they had long been officers, and the community in which they were widely known and honored. Appropriate resolutions of respect will be found recorded upon the minutes of the Board.

Early in the year the Board also suffered a severe loss in the death of the Rev. John Irwin, who for four years had acted as its assistant secretary. For nearly a year his health had been manifestly failing, and several months before his death, which occurred upon the sixth of June, 1889, he was obliged to seek entire rest from active work. Mr. Irwin came into the office of the Board during the illness of the late Dr. Wilson, which rendered special assistance necessary. His experience upon the mission fields of the West, his business ability and his interest in the work especially qualified him for usefulness, while his genial manners and ready sympathy endeared him to all who were associated with him.

The workmen die, but the Church of Christ ever grows stronger and stronger; and each particular agency that bears a part in its progress, if worthy of its place, must each year keep pace in the advance. Very manifestly this is the case with the work of church erection. The continued multiplication of new congregations calls for constant additions to the number of church homes. Every denomination of evangelical Christians is making rapid progress in this broad land. It needs but a very brief glance at what the different branches of the Church of Christ in our country are unitedly doing, to answer the flippant sneers of those who allege that the cross of a Divine Redeemer is losing its power. The growth of churches, the number of communicant members more than keeps pace with the increase of the population marvellous as it is. God is stirring up the hearts of His people to confirm the growth and ensure its permanence by aiding these new congregations to build the houses of God, they would be unable unassisted, themselves to erect. We cannot doubt that the work will be done. question of supreme interest to us is: Shall our beloved Church have her full share in the work? The report of this Board may aid us in answering this question.

#### I.—THE PROGRESS OF THE WORK.

The progress of the work of this Board assumes a special interest when it is considered that it is a very accurate guage of the advance of the Church. Such advance is manifested in two ways; by the number of new organizations that give proof of vigorous life, and the number of older churches that outgrow their original church homes. Both of these modes of progress are reflected in the applications made to this Board and so far as the former is concerned, the rate of advance is very accurately registered. Manifestly as the Church grows larger, if the rate of increase is to be maintained, the actual demands must each year be enlarged.

What do we find to be the facts? For the last five years there has been a steady increase both in the number of formal applications and in the aggregate amounts for which they have called. There has also been a constant advance, although not in like proportion, of the contributions from the churches. This progress of the Board indicates a like forward movement in the Church—an advance so quiet, so unnoticed, and yet so certain and unceasing that it prophesies of the day when this nation shall be in fact what it always has been in name, a Christian people; while it reminds us of Our Lord's word: "The kingdom of heaven cometh not with observation."

The applications are usually from churches in the first or second year of their existence, and thus the number received tells the story of the advance during the previous year of our missionary army.

Early in this present year it became evident that the year preceding had been one of very great activity in missionary work, with an advance all along the line. So rapidly did the applications come in, that it seemed as if it would be impossible to find means to meet them. Although in the later months the increase was not so marked, yet the number of formal applications approved by the presbyteries and received by the Board probably exceeds that of any previous year since the Board has been in existence.

The total number thus received was for church edifices 200 and for manses 39, and the aggregate sum asked for was \$120,870 for the church buildings and \$15,675 for manses, or a total of \$136,545—which is \$19,288 more than last year and \$22,113 more than the year before. These figures indicate a steady and marked advance.

#### II.—THE RESOURCES COMMITTED TO THE BOARD.

To meet the growing demand as indicated above, it is necessary that there should be year by year a corresponding increase in the working income of the Board.

Were this the case, the forward movement would be quiet and uninterrupted. When, however, the demands exceed the supply; when churches go forward, as most of our young missionary churches do, confidently trusting in the organized instrumentalities of the Assembly to give them the aid they need, then, if such help is not forthcoming, hardship, peril and at times disaster ensue.

It is, therefore, a source of satisfaction to the Board that it can report an increase in its ability to redeem the pledges that its organization involved; it wishes that it could add that the increase has been commensurate to the demand. The contributions from the

churches this year have exceeded those of last year \$5,060.48, and those of last year were \$1,031.64 in advance of those of the year before which in their turn were \$3,168.50 in excess of the year still preceding.

The total of the working income is materially affected in successive years by the amount received from legacies, a very variable quantity, and not to be largely accounted in forecasting the resources of a new year

To this it may be added that the number of contributing churches is slowly increasing—the total this year beng 63 greater than last year and 213 in advance of the year before.

It is evident, however, in view of the new churches added to our roll that this slight increase hardly maintains the percentage of contributing churches four years ago. Making every allowance for the large number of weak and struggling churches many of them without pastors, which have all that they can do to maintain a name and a place upon the roll, it is, if not startling, still a subject for grave reflection, that so many congregations whom God has blessed are content to spend so much at home while they send little or nothing abroad. Many of these are churches that were themselves aided in the days of their feebleness, and who then cheerfully promised to return again what they had received.

The actual receipts which comprise the working income of the Board have been for the year ending April 1, 1890, as follows:

| Contributions from churches    | \$62,975 | 21           |
|--------------------------------|----------|--------------|
| Individual contributions       | 1,962    | 36           |
| Legacies                       | 6,539    | 23           |
| Interest from invested funds   | 12,475   | 10           |
| Sale of church buildings       | 4,304    | 79           |
| Appropriations returned        | 7,412    | 50           |
| Receipts from insurance        | 2,590    | 88           |
| Special contributions          |          | 40           |
| Premium on sale of U. S. Bonds |          | 00           |
| Sale of Western Lands          | 684      | 00           |
| Return Stuart Fund advance     | 420      | 00           |
|                                |          | \$116,895 47 |
| Contributions to Manse Fund    | \$ 1,454 | 06           |
| Repayments to Manse Fund       | 6,956    | 42           |
| Interest                       | 173      | 03           |
| Miscellaneous                  | 634      | 44           |
|                                |          | 9,217 95     |

#### III.—APPROPRIATION OF RESOURCES.

The funds entrusted to the Board are placed in its hands simply for distribution, but its report is necessarily not a mere accounting. It is not in the position of a distributing agent who has simply to see that funds reach their appointed destination. It is accountable for the wisdom with which the gifts of the Church are distributed, and unfortunately too often there is added to its responsibility the necessity of deciding who, when resources are insufficient for all, will suffer least if they are withheld. Thus its task is one of great delicacy and at times of embarrassing difficulty. It must arbitrate between claims both of which cannot be fully met. It must cause frequent disappointment and at times risk criticism and complaint. Each church applying for aid realizes keenly its own great need, and it is not strange, but is rather a proof of natural and commendable enthusiasm, that so many congregations conceive their case to be a special one in behalf of which the Board may for once overstep the rules of the Assembly. Where mistakes have been made in the apportionment of funds, it has not been because the Board has failed to interest itself and seek such information as was available. In this endeavor it has been greatly aided by the standing committees of the presbyteries, for whose valuable aid and wise counsel it would express its sincere acknowledgements. It also recalls most gratefully the unselfish readiness of churches generally, even when disappointed, to appreciate the situation, and without complaint assume unexpected burdens in order that insufficient funds may be the more widely distributed.

1. Churches.—Appropriations have been made during the year for 174 Church edifices distributed among 25 Synods and 92 Presbyteries. As is to be expected the centre of distribution geographically like the centre of population is each year moving westward. Yet Kansas is so large a State, so nearly central to the Union, and so attractive a field for enterprise that for the last four years the centre has vibrated within its boundaries, and the State itself has claimed until this year the largest number of grants. Yet the number assigned even to this imperial State, is slowly decreasing, 14 this year, 23 last year, 25 and 24 respectively in the years next preceding.

Naming now the States that have received more than ten grants in the order indicated by the number to each, the following is the succession: Minnesota, 15; Kansas, 14; California, 14; Iowa, 13; Nebraska, 12.

In the aggregate the appropriations for Church edifices have reached \$96,394, being an increase of \$8,420 over last year from

the general fund, and a falling off of \$5,113 from our now nearly exhausted special fund.

Adding to this the special gifts, the number of church edifices in whose erection the Board was permitted to aid, amounted to 207 and the entire sum thus promised reached \$112,051.04.

The actual payments have amounted to \$107,412.92, of which \$15,657.04 were gifts designated by the donors to special cases, and \$1,324.88 were to make good losses by fire.

2. Manses.—The fourth year since the work of the Board was extended to include manses is now completed, and the results of the new departure can be estimated with a good degree of accuracy. The first year, as was to be expected, made the largest demands upon the fund. Many churches in all parts of the country were ready and waiting for the opportunity to build homes for their ministers. In each of the three succeeding years the number of applications has been about the same, ranging from 30 to 42. Probably the number would be largely increased were the fund sufficient to permit the Board to encourage the hope that it could, if it approved them, respond favorably to all that might be sent. As, however, the fund is only a little over \$30,000, of which hardly a third is each year available, and as the amounts needed average about \$400, it is evident that the number of loans in any one year cannot much exceed 25.

Applications were received during the year from 39 churches, asking for gifts or loans to the aggregate amount of \$15,675. Some of these requests came from churches that were building houses of a more expensive character than was contemplated in the plan of the Assembly, which directs the Board to fix "such limit as will confine the work to the feebler and mission churches;" and some were from congregations that were in a position to borrow elsewhere at a low rate of interest, but 31 of them were to provide very modest homes for missionaries in the region west of the Mississippi, and 11 of these were from New Mexico, the Indian Territory and the Pacific Slope.

In response to these applications there were made 26 loans aggregating \$10,050, and one absolute grant of \$150 to a missionary church in Arizona.

There have been repayments from 64 churches aggregating \$6,956.42, and other contributions to the amount of \$1,454.06. The fund stands upon the books at the close of the year as \$33,207.25.

Time has thus shown that the plan of *loaning* to supplement the resources of the Church, the amount to be returned without interest within three years is a good one. The apprehensions that suggested

themselves that congregations would feel burdened by the debt have not been realized. In the great majority of cases repayments have been made with reasonable punctuality, and the prospect is good that the fund so generously provided will realize the expectation of the original donor and of others who have added to it, and remain essentially intact to continue its beneficent provision in the years that are to come.

The Board sees no reason to change its opinion expressed last year that no more remunerative use of money could be made than by increasing this fund to the full amount of \$50,000.

#### IV.—RECAPITULATION.

Looking at the work as a whole, accounting appropriations, both general and special, for church edifices and manses, and payments of losses by fire, the total number of churches thus reached has been 250; and the aggregate amount pledged \$122,694.35.

All of the home synods, excepting Baltimore, are numbered upon our roll, and all of the States and Territories within the bounds of our Church. In fact, the border has been over-run for one little church aided by a special gift, although counted in the presbytery of Los Angeles, is in Lower California and under the Mexican flag.

The receipts from all sources available in the different departments of the work amounted to \$126,113.42; and the sum of all payments, including expense of administration, was \$129,473.80.

While the payments of any particular year are not dependent simply upon its current receipts, but so far as they are disbursements to meet appropriations made in previous years are provided for by sums set aside at the time of appropriation, it is still evident that taking one year with another, the Board can only pay out what it receives. The consequence is that as the payments have now for two or three years exceeded the receipts the small reserve fund that was on hand four years ago is now entirely exhausted. In other words the demand outruns the resources. These payments indicate the churches that during the year have reported the completion without debt of their houses of worship. The number is 179, and a reference to the alphabetical list in the appendix shows that the aggregate value of the property thus secured was nearly A HALF MILLION OF DOLLARS.

Upon the map accompanying this report the location of each church is indicated by a number corresponding to the one opposite its name in the annexed lists where the names are given by synods, and in alphabetical order. The map as a whole gives at a glance an idea of the reach of the work.

#### V.—BUSINESS DEPARTMENTS.

There are several important departments of the work of the Board which must be carefully maintained either to protect and conserve what has been done in the past, or to extend advice and assistance aside from pecuniary aid to young churches proposing to build. These departments, although essential to its successful administration, add nothing to the income of the Board, yet they are necessarily each year demanding more time and expense in their maintenance.

1. Mortgages.—As is well known the plan of the Assembly requires that whenever a Church receives an appropriation it shall give a mortgage to the Board. The mortgage draws no interest, and is never due unless the Church is dissolved or abandons its house of worship.

Experience proves that this provision is of the highest importance. The Presbyterian Church would be recreant to its duty if it refused to organize new churches until the character and permanence of villages were settled beyond peradventure. No great and far-reaching work can be carried on successfully without a certain measure of over-work, of an expenditure of strength that at first blush appears to be wasted. Thus as no one can unerringly prophecy of the future of a new village, and as all churches organized in missionary work, must ordinarily share the fate of the villages in which they are placed, a certain per centage must in the end fall out of line.

The mortgage is to provide against such contingency. It serves also in the case of churches that grow strong, to remind them in their prosperity of the aid they received in the days of infancy, and to suggest that they return the gift to bless some other struggling congregation. To show the practical effect it is only necessary to say that during the year \$4,304,79 have been received from churches that have completed their work and have been dissolved, and \$7,412.50 have been repaid by others out of their present prosperity.

The number of mortgages now held by the Board exceeds 3000, covering grants to the amount of over \$1,500,000, and securing property valued at, at least, four times the amount, and probably very much more.

2. Insurance.—Insurance policies to nearly an equal amount with the mortgages are also held, and as these must be renewed at their expiration, their care and protection is itself a large item of business—the expense of which must be added to the outlay of the Board. Practically this insurance is for the benefit of the church, for although, in case of loss, the Board recovers the amount insured,

it is always ready to regrant the same to the church to aid in rebuilding.

In connection with this plan of insurance there are two or three points to which it may be well to call attention.

Under the system adopted by the Board, it is obliged to effect all of its insurance in one way. The request comes very frequently that the Board will accept for its protection the assignment of a policy already secured by the church. This the Board is not able to do, both for the reason given above, and also because in view of the large number of policies it holds and the large amount of property involved, it would be almost impossible, except under one unvarying system, to arrange its business so as to care for all interests involved, including the periodic renewal of the policies and the provision for the payment of so large a number of premiums.

Upon the other hand it is equally impracticable to cover by its insurance a larger sum than its mortgage interest.

It should be, therefore, the universal rule for churches to secure insurance for themselves in approved companies to an amount that, together with the amount secured by the Board, shall equal at least two-thirds of the value of the buildings. This, we are sorry to say, is very often neglected. Case after case is reported where after a fire has occurred it is revealed that the only insurance is that held by the Board, and that too when the value of the building is fourfold greater than the amount of its mortgage, which alone is protected. When in such cases the fire comes it leaves the church almost crushed beneath its loss, and in great danger of dying because unable to rebuild its home. During the year there have been reported to the Board 15 cases of damage from fire, and losses aggregating \$2,809.60 have been paid.

3. Architectural Plans.—Under the direction of the General Assembly, the Board has procured many designs for churches which it is always glad to send out for the benefit of congregations contemplating building. The most of these designs are for simple and inexpensive buildings. And when a design is chosen, there can usually be furnished at a very moderate expense (little more than nominal) the drawings, including the elevations, ground plan, specifications and details for working. Such are sent, and with advantage to the smaller churches, almost every day.

The Board had hoped to complete the preparation of a new edition of its book of designs, before the close of the year, but circumstances have delayed the publication. It is believed that in the enlarged and improved form that is contemplated, it will be of great service, especially to the smaller churches.

#### VI.—GENERAL OUTLOOK.

The demands of the future are likely to be fully equal to those of the past, if they do not greatly surpass them.

The Church is constantly growing, and the admission of new States to the Union and the opening of former Indian reservations to the entrance of immigrants has given an impetus to population in those young empires which can not fail to make itself felt in increased demands upon all our missionary Boards.

But how can the Board respond unless the Church that stands behind it puts the means into its hands? It has been already shown upon a previous page that for several years the demands have outrun the resources, and that disastrous inability to give aid has only been averted because a small reserve fund has come down from previous less exhausting years. That fund is now exhausted and the Board enters upon the new year with a treasury practically empty.

It is proper here also to state that the special fund contributed some years ago by a generous friend of the Board is now also exhausted. The fund was of inestimable value in enabling the Board to extend aid in exceptional cases, which, although well worthy of assistance, were still outside of the explicit rules given by the Assembly. The Board would esteem it a signal blessing if the knowledge of the value of such a fund should prompt its replenishment.

In short, if the work of this Board, so absolutely essential to the muintenance of our noble missionary line, each year still further advanced, is to be effective there must be an immediate and substantial addition to its resources. It is with gratitude that it remembers that its receipts have yearly shown an advance, although the increase is but small, and that a larger number of churches have contributed; but it still remains true, as has been already remarked, that nearly one-third of the congregations upon the roll of the Assembly give this Board no assistance.

On the other hand, it should be remembered by congregations preparing to build that, owing to lack of funds or to other reasons, it is not possible for the Board always to supply the deficit between the subscription of the church and the cost of such house as will entirely meet their wishes. In view of insufficient supplies, it would seem that the most careful economy should be exercised by all concerned, and no contracts made until it is clearly understood whence will come the supplies. Moreover, if the Board rightly interprets the rules of the Assembly, its legitimate work does not include appropriations or loans of large amounts to complete

edifices costing from \$10,000 to \$20,000. Yet not infrequently it is asked so to do.

All uncertainty could be obviated and all danger of disappointment removed if in every case the Board were consulted at the very inception of the movement. The natural and safe sequence of steps in church building is: First, a lot with title in fee simple; second, as large a subscription as possible; third, an estimate of the cost of building; fourth, an assurance of a grant from the Board; and fifth, the letting of the contract at a price within the assured resources of the congregation. Too often all this is reversed and the contract is made and the building commenced even before the title to the lot is secured, much less the subscription completed or the Board consulted. Hence anxiety, embarrassment, debt, and not infrequently sad disaster.

The Board would also call attention to the probability that there is a large wastage in response to private appeals to churches and individuals. Natural as it is for churches that feel their need, to make such appeals, the General Assembly has again and again in terms discouraged the expedient. The very object sought in organizing this Board was to systematize the matter of aid in church erection and to relieve churches and individuals known to be liberal, from being overwhelmed with appeals. Two or three considerations emphasize the wisdom of carrying out the original intention of the Assembly.

When contributions are given in response to appeals scattered broad-cast over the Church, no one ever knows how much in the aggregate is given or how wisely it is expended. Indeed, if the enterprise after all is not carried through, the money is given in vain.

Moreover, there is no security for the money if in after years the church should be dissolved. Experience has shown that before money is sent to a distant field it is well to know how much the congregation itself is doing; what is the need of its organization; what are the prospects of successful life; and finally to be assured that the edifice will be completed and the congregation left free from debt. It is upon such facts as these systematically reported and upon the approval of the presbytery, that the Board makes its appropriations.

Thus while it is inevitable that donors should from time to time be interested in special cases, and well that it should be so, the Board ventures to suggest that many infelicities would be avoided and many dangers averted if in such cases the givers would send their contributions through the Board, directing, if they please, that the amounts be immediately forwarded, or, still better, directing that they be held in trust until the church furnish to the Board an assurance that with the aid provided it can complete its building without debt.

#### VII.—ELECTION OF MEMBERS OF THE BOARD.

The term of office of the following members of the Board expires at this time, viz.:

#### MINISTERS:

#### ELDERS:

REV. SAMUEL D. ALEXANDER, D.D.

REV. ARCHIBALD McCullagh, D.D.

WILLIAM N. CRANE. BENJAMIN F. DUNNING.

REV. RICHARD D. HARLAN.

REV. ROBERT F. SAMPLE, D.D.

It will devolve upon the Assembly to fill these vacancies, together with the vacancy in this class caused by the death of Stephen H. Thayer, and the vacancy in the class whose term expires in 1892 caused by the death of Bennington F. Randolph.

All of which is respectfully submitted.

By order of the Board.

SAMUEL D. ALEXANDER,

President.

ERSKINE N. WHITE,

Corresponding Secretary.

# Report of the Standing Committee on the Board of Church Erection.

The Standing Committee on Church Erection would respectfully report to the General Assembly:

That we have carefully examined "Twentieth Annual Report of the Board of Church Erection Fund," the Treasurer's report and the minutes of the Board for the year 1889-'90.

Again this year, as last, the Board reports loss by death among its members, this time a double loss. In January Stephen H. Thayer, one of the original incorporators of the Board, and in March Judge Bennington F. Randolph, a member of the Board since 1873, were called from their earthly service to their heavenly reward. Both of these servants of the Master had lived their three score years and ten, and yet their deaths were unexpected and a sore bereavement. The Board has placed on its record a minute of its sense of loss and respect for these fathers of the work, and then well says: "The workmen die, but the church of Christ ever grows stronger and stronger."

In looking over the annual report it appears that a larger number of churches have applied for aid during the past year than ever before, and that the amount asked for is larger in the average to each church than heretofore. The contributions from the churches have likewise increased during the year, and the amount of appropriations returned in payment of mortgages has increased. and consequently the appropriations to the churches have increased: and yet the increase in the resources of the Board have not nearly kept pace with the ever-increasing demands upon it. The demands for assistance are far outrunning the means supplied. The church needs to appreciate more fully the importance and exceeding usefulness of this Board. It is not to be looked upon as one of the minor agencies of the church. None is more important. One of the Secretaries of the Foreign Board, with no little enthusiasm, remarked to the Chairman of your Committee this week: "I do not know of any part of the work of the church where a little money will go so far and do more good than in the hands of the

Church Erection Board." We might add that if a little does much good here, larger means will do more.

Our home Board with the hundreds of thousands of dollars placed at its disposal (and that is not enough) may go forward and plant churches, but unless the Board of Church Erection comes after to supply the means which enables these new and small churches to provide for themselves permanent houses of worship the evangelizing work of the church is certain to suffer great waste and loss. The Synod of Kansas with its seven presbyteries and nearly or quite four hundred churches has little more than come to be of age, having been organized in '69, or possibly in '68. And of all these four hundred churches in Kansas there are said to be less than half a dozen which have not been aided by this Board. For some years previous to the present Kansas has received a larger number of appropriations than any other State. This year Kansas takes second place, having received fourteen grants, which is one less than Minnesota, while California has exactly the same, fourteen: and Iowa and Nebraska come next with thirteen and twelve each respectively.

During the year applications for aid in the erection of houses of worship have been received from 200 churches. Appropriations have been made to 174, and 179 have been reported completed and dedicated without debt. While every home Synod in the church, with the exception of Baltimore, has received aid for some of its churches, yet more than two-thirds of the churches aided by this Board lie west of the Mississippi river. The geographical center of operations of this Board has for years vibrated within the State of Kansas. Will another half century carry the center of our church population and influence across the great river? Certainly the rapid development of our country in the West ought to inspire us to undertake great things in the Lord's service. A single instance will illustrate the importance of this cause and the rapidity with which returns of many fold are secured in the church. It is not yet twenty-five years since the home mission pastor of the Second Church of Kansas City was sent East to New York to secure six hundred dollars with which to erect their first house of worship. Since then this church has become strong enough to have planted numerous colonies, has had two General Assembly Moderators as its pastor, has returned an hundredfold all that it ever received, and now covets the whole General Assembly for next year. Was not that humble home missionary building better than he knew when in 1866 he trudged to New York for his \$600?

The contributions to the general treasury of the 3,236 con-

tributing churches, including individual and special gifts, have been \$80,268.97. The total working income, including both funds, has been \$126,113.42.

The total amount of grants has been, for churches, \$96,394; for manses, \$10,200; total for both objects, \$106,594.

While there have been sixty-three more contributing churches this year than last, yet this increase is not nearly in proportion to the increase in the whole number of our churches.

It is feared that among the non-contributing churches there are some that have received aid in past years which have forgotten or neglected their solemn promise to make an annual contribution to this cause.

It will be remembered that four years ago—in 1886—the Board received a special gift of \$25,000, to be used as a "Manse Fund," to be put out in loans to churches, without interest for three years, to assist in providing homes for ministers. In this work the Assembly directed the Board to fix "such limit as will confine the work to the feebler and mission churches," and also asked the stronger churches for contributions to this fund. The success of the Manse Fund has surpassed expectations. Thirty-nine churches have applied for loans from this fund during the year, thirty-one of this number being from churches west of the Mississippi river. Twenty-six loans and one absolute grant (an exceptional case) have been made. Sixty-four of the churches which have received aid from the Manse Fund during the past four years have this past year returned their loans to the amount of \$6,956.42. The total amount of the Manse Fund is now \$33,207.26, though such is the nature of the fund that only about a third thereof is available for new loans in any one year. It is certainly to be regretted that the Assembly's recommendation of last year did not carry this fund to the full amount asked for, namely, \$50,000.

In conclusion, your Committee submits the following recommendations for the action of the Assembly. We recommend:

- 1. That this Assembly commends the faithfulness of the Board and its Secretary, and approve their annual report, the Treasurer's report and the minutes of the Board as being full and admirably kept and recorded.
- 2. That this Assembly calls the attention of such churches as have received aid in the past, and are now strong and self-sustaining, to the desirability of paying off the mortgages which stand against their property. The conditions of these mortgages are such that no legal claim can be enforced under them so long as the property continues to be used for the purposes of worship according to our

Presbyterian order. But the Assembly would press the moral obligation upon the Christian consciences of these churches to return the amount received just so soon as a reasonable degree of financial strength has been attained. It is gratifying to know that during the past year over seven thousand dollars (\$7,412.50) have been returned by churches out of their present prosperity to be again sent forth to help other churches. The Assembly calls attention to the fact that the rules of the Board permit a discharge of the mortgage by an annual contribution to the Board's fund of ten per cent. of the original grant till the whole is paid, or by a cash payment at one time of seventy-seven per cent. of the original grant.

- 3. That churches expecting to apply for aid be instructed to consult with the Board at the earliest possible stage of their efforts before indebtedness is incurred or too large plans adopted.
- 4. That aid-applying churches be reminded that the purpose of the Board is to assist in providing comfortable houses for the youthfully weak and not to provide enlargement or ornamentation for the mature or the strong.
- 5. That churches are earnestly urged to send all their contributions for this cause through the treasury of the Board. Private appeals for aid ought not to be encouraged, but emphatically discouraged. All contributions, whether general or special, should be sent through the Board so as to secure them to the church.
- 6. That this Assembly emphasizes the importance of the Manse Fund, and would press the churches to raise this as speedily as possible to at least \$50,000.
- 7. That this Assembly believes that \$150,000, exclusive of the Manse Fund, is urgently demanded for the use of this Board, and hereby pleads with the churches to raise this amount for use during the coming year. The urgency of this demand will appear greater when it is known that the "Special Fund," which the Board has had at its disposal for some years, is now exhausted. Is it not possible that some other generous giver or givers stand ready to establish another such fund as the "Stuart Fund" of the past?
- 8. That the Assembly commends for the use of presbyteries and churches expecting to apply for aid the plans for buildings, both churches and manses, prepared under direction of the Board, and which will be furnished at cost when applied for. A new book of plans is soon to be published by the Board.
- 9. That the following members of the Board whose terms of office expire at the present time be re-elected, namely:

MINISTERS—Rev. Samuel D. Alexander, D.D., Rev. Archibald McCullagh, D.D., Rev. Richard D. Harlan, Rev. Robert F. Sample, D.D.

ELDERS-William N. Crane, Benjamin F. Dunning.

Also in this same class we recommend that Elder Theron G. Strong of New York be elected to take the place of Stephen H. Thayer, deceased; and in the class of 1892, that Elder Joseph L. Munn of New Jersey be elected to take the place of Bennington F. Randolph, deceased.

All of which is respectfully submitted by the Committee.

DOUGLAS P. PUTNAM,

Chairman.
